

Built in fridge and freezer 2022

2022-11-24 | GB/SM-CAR | Valerie Posner

New Push to open

Overview DOA (door open assist)

- There is a clear trend towards handle-free kitchen furniture
- DOA is a feature for **built-in single door** appliances.
- DOA:
 - A slight tap on the furniture door is all that is needed to open the built-in refrigerator or freezer to 5cm
 - Door will automatically self-close after 3 seconds if no interaction
 - Home Connect App will also enable a voice activation feature

New Push to open

For when you want to put the cakes **back** in the fridge and you don't have any hands spare

N90 Larder fridge

KI8815OD0

In stock now

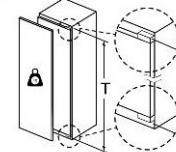

Included in new models as standard

- KS0B0SZ0
- Furniture front are getting heavier due to the use of real materials such as stone.
- As a result, standard hinges can be affected negatively. This set prevents the lowering of the door due to the weight and avoids damage to the furniture front.
- The new hinge increases the weight allowance from 22kg to 26kg.

Maximal permissible weight of the unit fronts

Fitted kitchen unit doors that exceed the permissible weight may cause damage and result in functional impairment of the hinges.
