Ready To Start Your Journey?

Your final cost will depend on your space, your style, and the choices you make. The specification levels in this guide are only a starting point. You might love the Next 125 but prefer a laminate worktop to keep costs down, or go for Impuls furniture paired with a Quartz 20mm worktop because that's where quality matters most to you. It's all about finding the right balance.

Our designers will sit down with you, get to know what you're after and help you figure out exactly what works for your kitchen and budget. No two kitchens are the same, and that's the point.
